(No extra product shipments or scheduling conflicts)
- Better Communication!
- Better Product Fit (more solutions supply): the most important goal for clients.

What Process Methods / Services That We Can Do For You ?

Alloy I Zinc Die Casting

Equipment Capacity:

- 50~2500 Ton (TOSHIBA)
- FANUC Robot
- 1500 Tons Aluminum Alloy Central Tower Continuous Melting Furnace

Forging

- 1000 tons X type forging machines
- 1300 tons X type forging machines

CNC Machining

Plastic injection

Surface Treatment Methods

Automatic Grinding/Polishing Machine
Coating Production Equipment
Electroplating I Anodic Oxidation I Heat Treatment etc.

QC I Inspection

- X-Ray Inspection System
- Precision Inspection 3D CMM
- Leak Detection Equipment (Cosmo)
- Spectrometer
- Height Gauge
- 2.5D Projection Comparator
- And More Related Equipment

Assembly

The previous effective collaborations in the workplace have strongly indicated the stunning capability and quality performance That we can provide and maintain in order to reach all various qualification standards globally!

Project

Digital Powder Measure Device

Application:

A specific electronic device intended for metering the right powder proportion for rifle caliber use.

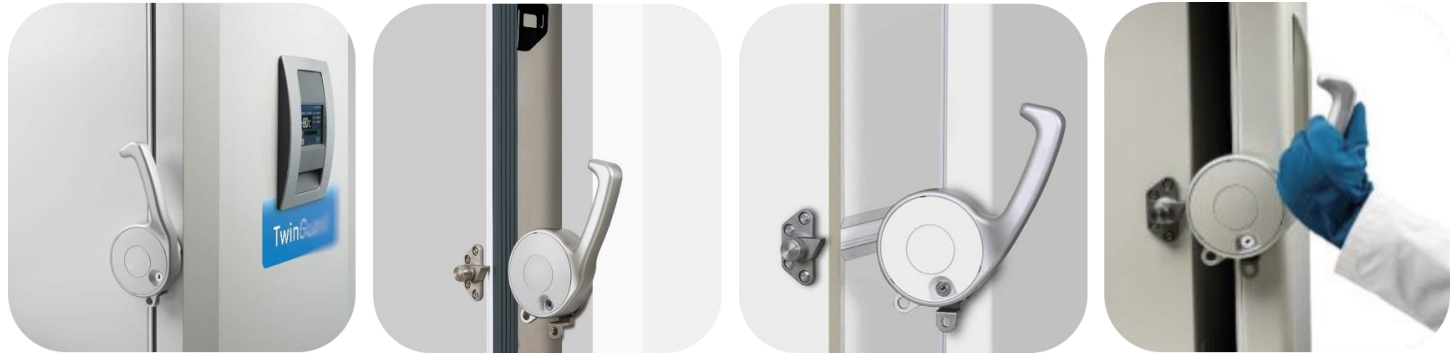

Project

ULT Lab Freezer (Key-Lock Handle)

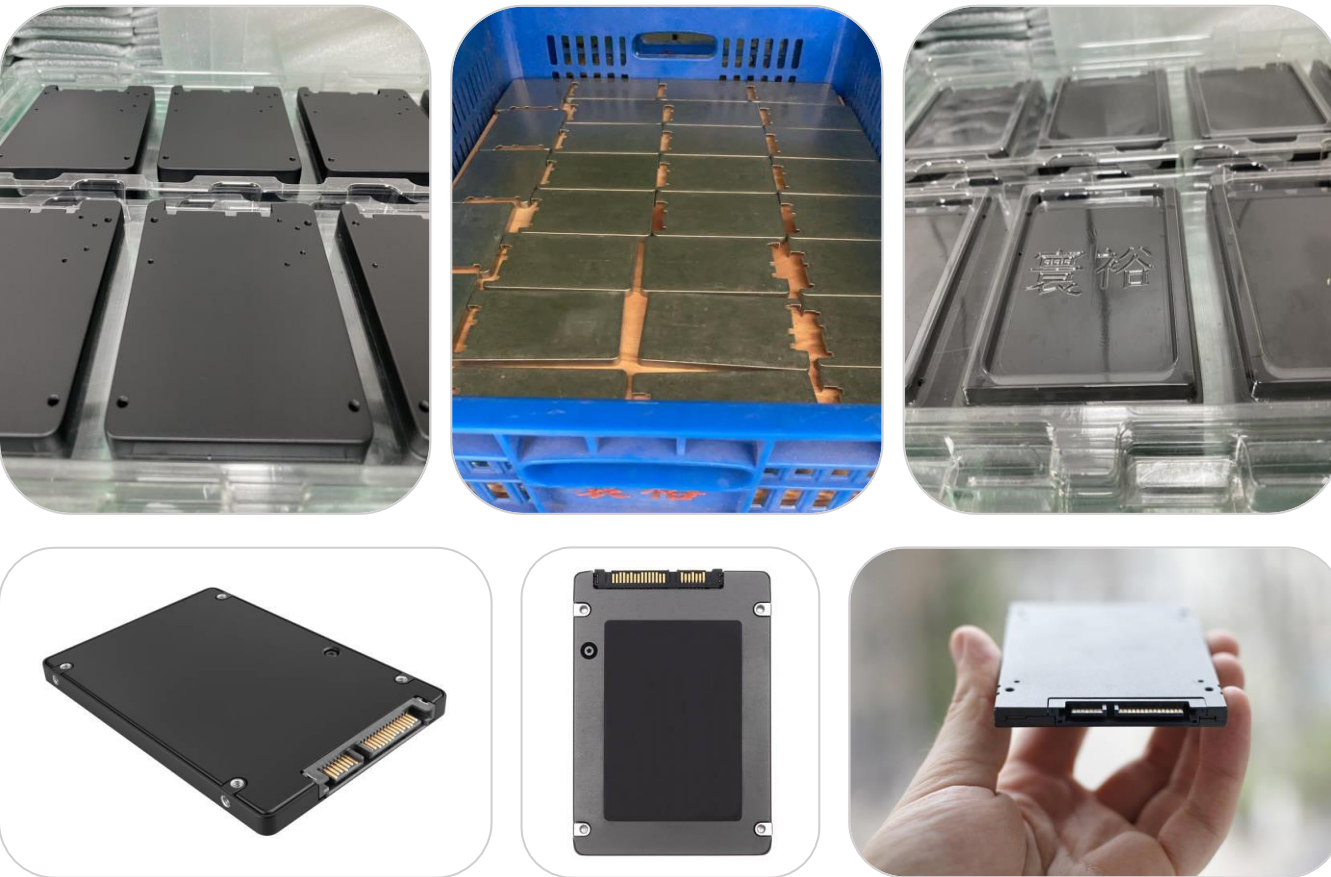

Application:

A professional medical devices designed for the safe and long-term storage of vaccines, human cells, tissues and other laboratory samples by setting the ultra-low temperatures to -86°C .

Project

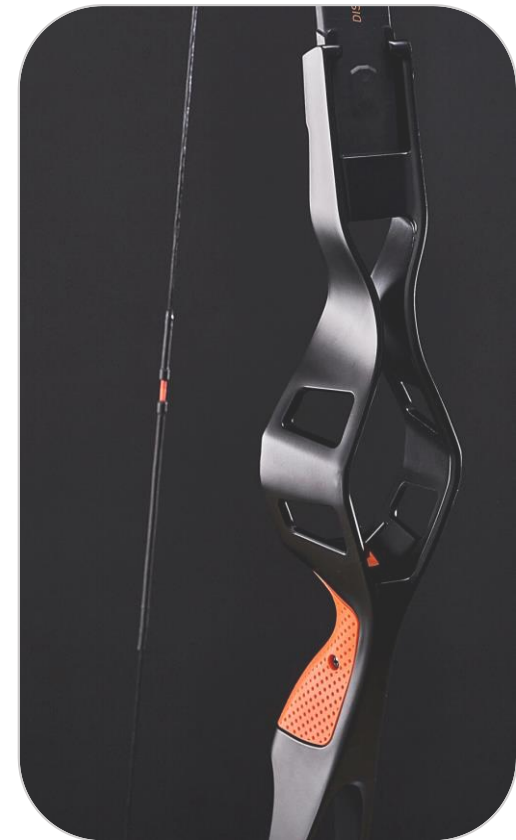

Solid State Drive (SSD)

Project

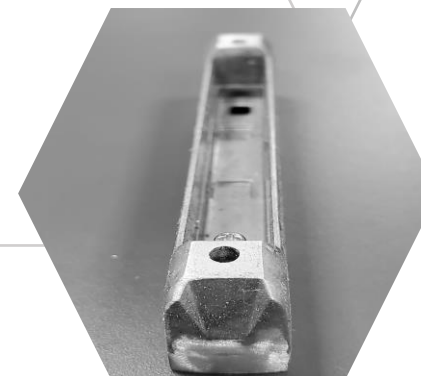

Archery Bow

DECATHLON

Project

Strobe Warning Lights

Project

Signal / Warning Lights

Project

Outdoor Lighting Equipment

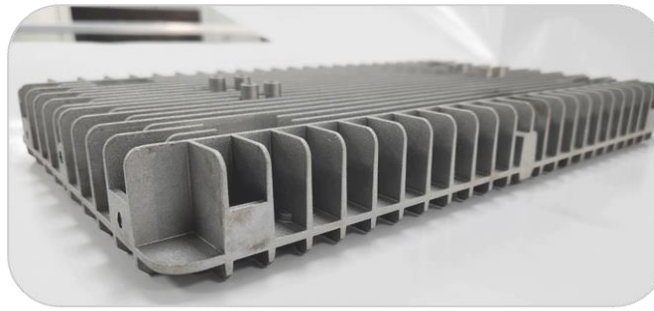

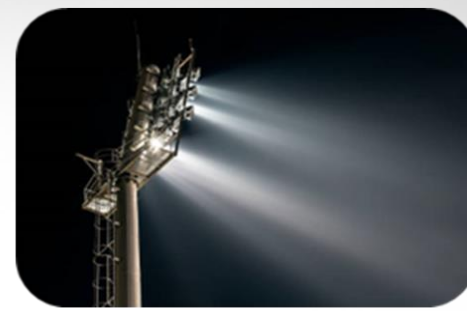

Application:

Specialized intensity floodlight equipment for Sports Stadiums, Streets School Sports Fields, etc.

Project

Applications

Project

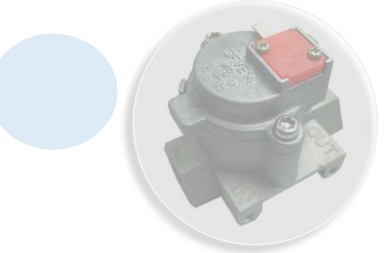

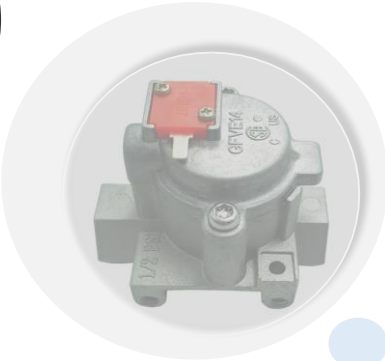

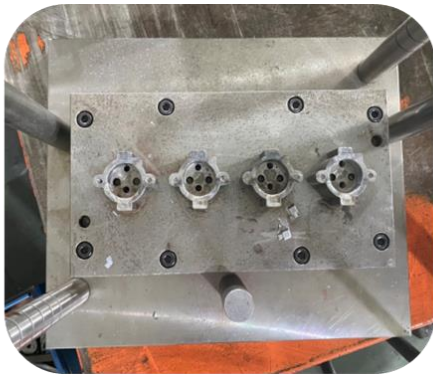

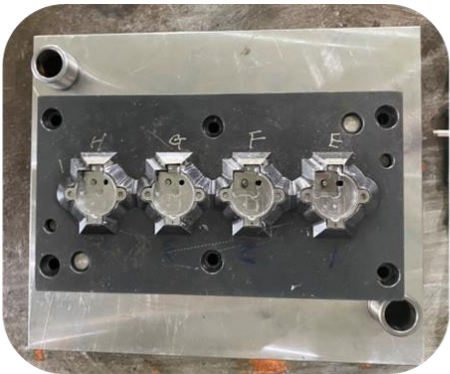

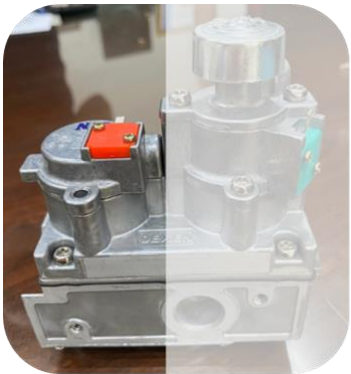

Trucking Lighting Frame

Project Gas Valves Regulator (For Fireplace)

Application:

Apply for balancing the gas pressure to normal level and providing the continual flow of gas.

Project

Gas Meter (Housing)

Project

Strapping Machine

Project

Door Locking System

Project

Industrial Projector (For Production indicating Purpose)

Project

Pizza Oven Peel / Tray / Griddle

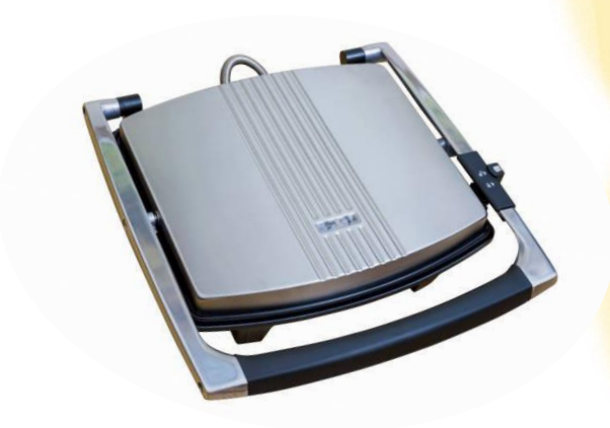

Application:

Custom design of Peel / Tray / Griddle for outdoor pizza baking purpose.

Project

Home Kitchen Appliances

Application:

Sandwich Maker / Toaster / Waffle Maker / Grilled Cheese Maker
Panini Press Sandwich Maker
